Computer Systems Engineering graduate with hands-on experience leading academic and Fullstack development projects. Specialized in covering the complete product lifecycle – from UX/UI wireframing and database design to robust RESTful API development. Passionate about building scalable, user-centric web applications with a strong focus on Frontend innovation.

PROJECTS / ACADEMIC EXPERIENCE

Capstone Project (TT1 & TT2) – Web application to generate museum recommendations in Mexico City
Lead Fullstack Developer

IPN - ESCOM
August 2024 – June 2025

- Designed and built an end-to-end web application for museum recommendations in Mexico City, managing analysis, UI design, implementation, and testing phases.
- Implemented custom recommendation algorithms utilizing association rules and tailored user profiling.
- Developed a robust backend using Node.js and Express, integrating a MySQL database for all core CRUD operations.
- Defined the complete design system and user interface (UI), ensuring a highly intuitive and consistent user experience (UX).
- Achieved an Honorable Mention with a perfect final score (10/10).

AppDer – E-R Diagram Modeling & Validation Platform
Lead Fullstack Developer

IPN - ESCOM
January 2026

- Created an interactive web platform designed for modeling, mapping, and validating Entity-Relationship (E-R) models.
- Developed a feature for automatic transformation from E-R diagrams into relational database models, enabling automated SQL export scripts.
- Built a highly dynamic, reactive canvas interface using React and React-Flow for diagram visualization.
- Structured the backend server using Node.js to handle complex logical model validations and relational processing.

EDUCATION

Instituto Politécnico Nacional (IPN) – Escuela Superior de Cómputo (ESCOM)
B.S. in Computer Systems Engineering
Status: Graduated (Degree process / Professional internship pending)
GPA: 9.0 / 10

Mexico City, Mexico
August 2020 – January 2026

IPN – Centro de Estudios Científicos y Tecnológicos (CECyT) no. 8 “Narciso Bassols”
Technician in Computer Science

Mexico City, Mexico
August 2017 – June 2020

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Python, Java, SQL, C, C#, C++, Dart, PHP.
- **Frameworks & Libraries:** React, Node.js, Express, SASS, Django.
- **Databases:** MySQL, Supabase, PostgreSQL.
- **Tools & Methodologies:** UX/UI, APIs REST, Git/GitHub, Microsoft Office, Unity.
- **Languages:** Spanish (native), English (Intermediate – Technical documentation & reading).

SOFT SKILLS

- Agile Team Leadership & Cross-functional Collaboration.
- Technical and Non-technical Communication.
- Analytical Problem-Solving & Debugging.
- Time Management & Goal Prioritization.
